MINING NOTES.

The *Marmora Herald* says "Thomas Lawrence, of the 3rd concession of Marmora, has taken a gold-bearing quartz which, taken from a ledge on his farm. This, Warren, 85, showed a fine sample of gold-bearing quartz on Wednesday. The ore appeared to be quite rich and Mr. Warren purposely having it assayed. He says that the vein is 14 miles from a railroad with a good road leading directly to it over which a team of horses could easily haul a load of 1500 weight. On the 6th of March, Mr. Lawrence has taken a split to the depth of about four feet from which he has taken some good shows. At this place there is a junction of three veins and a little west of the junction another vein connects with the main vein, which has been placed on our table for inspection, which we will be pleased to show together with samples of other minerals.

George Dawson, ex-M.P. Plevna, predicts mineral development in Addington. The district is a large one and is very rich in the ore have been placed on our table for inspection, which we will be pleased to show together with samples of other minerals.

A valuable gold quartz led is reported as having been discovered on lots 9 and 10 in the 1st concession of Marmora. The ore is said to be very rich—so rich that the parties interested are taking care that no one interferes.

Spring is being awaited with much anxiety by a large number of people, and this prospecting will commence in earnest. The district is a large one and is very rich in the ore have been placed on our table for inspection, which we will be pleased to show together with samples of other minerals.

Last fall a like of the Woon's property was sold to an Ontario development company for \$300, but the advice of an expert, it was refused, and the other day C. Markell of Detroit sold the same mine for \$70,000. Mr. Markell, of the *Rainy Lake Journal*, commenting on this, says a tenderfoot has better judgment about the value of a gold property than alleged experts. In fact, the history of mining goes to show that nearly all the great mines have been in their early stages condemned by "experts." For instance, experts said you never would find gold in Minnesota, but the finds at Mesabi, in Montana, and in the Black Hills in that formation show that the experts did not know what they were talking about. In other words, gold is where you find it, and all the "experts" testimony in the world cannot controvert this plain proposition.

Gold finds continue to be made around Marmora. Thomas Lawrence of the south half of lot 31, on the 3rd concession of Marmora Township, has discovered a vein on his farm, and Thomas Warren, ex-M.P., has come to a good lead in another direction.

The Marmora Township, has discovered a vein on his farm, and Thomas Warren, ex-M.P., has come to a good lead in another direction.

Mr. Coy is sinking a pit in the east half of the west half of lot 20 in the 6th concession of Marmora with good results so far.

Mr. McAlpine, of Marmora, has been interested in a Lake of the Woods property. Gen. Alger, formerly Governor of Michigan, but now the United States Secretary of War, has with Mr. Farwell, of Detroit, purchased a two-thirds interest in the Pine Portage mine, situated in the north-west corner of the famous Sault Ste. Marie Township, in Michigan.

This mine was worked before, but has been abandoned for some time, but the new owners are confident that it will produce a large quantity of gold. There is a mill on the property, which will be repaired and set to work.

The latest estimates place Alaska's probable gold output for 1897 at \$10,000,000. The output last year was \$9,000,000. When Mr. Seward made that purchase it is quite possible he did not suspect he was striking a gold mine.

The second clearing out took place last week at the Canada Gold Field Company's works at Deloro. The exact results cannot be learned, but it was highly satisfactory.

The Canada Gold Field Company are advertising for 1,000 cords of wood to be delivered at their reduction works at Deloro.

Superintendent McNaughton, of the Bonanza mine, reported on Saturday that the results of last week's work in it were such that his expression of opinion, that it is the richest gold mine in the world, was systematically and scientifically the district may yet become one of the most important of its kind in still there are corners.

The rich placer mines of the Yukon Valley on the Canadian side of the boundary are said to be the richest in the world. Even with rule apparatus mines are making from \$10 to \$30 per day, and some have made as high as \$1,200 to \$3,000 per day. There is a great rush in that direction this spring.

Deseronto capitalists who hold stock in several Roseland properties have been encouraged by recent reports and have sold their stock certificates with even a more avidous grip than formerly.

The Channel led is closed, the British Columbia and Yukon Company, of London, Eng., purchasing fourteen claims on Chaud Island, near Vancouver, for a hundred and twenty-five thousand dollars. These are the first seaboard mines sold.

The Montana ore purchasing company has brought suit against the Boston and Montana Mining Company to recover \$22,322,000 for the value of ore alleged to have been extracted by the said company from the Roseland mine in the latter part of 1894. This is the biggest suit ever brought in the state of Massachusetts.

C. H. Harris, representing E. L. Sawyer & Co., mining brokers, Toronto was in Deseronto on Wednesday, pushing the claims of the recently formed Bonanza Gold Mine Development Company. He showed some rich specimens of ore recently obtained from the Bonanza mine which he attributes to a valuable property. Harris has recently returned from Roseland and other mining centres of the Pacific slope where he had been in the interests of his company.

Walter Fannin, of Belleville, has bonded and is about to proceed to develop a silver lead mine in Barre township, Frontenac county. The mineral assays sixty dollars per ton in silver, and there is also gold in it. Fannin is a well known prospector in Longbush, Frontenac, which has been successfully worked.

A cordial invitation is extended to all interested in horticulture.

A Close Call.

While the section men were cutting a railway track on Monday it fell over and a bar in the beam of the engine was hurled against E. M. Wallbridge on whom it inflicted an ugly scalp wound and alarm. Dr. Vandervoort attended the injury. Had it been a little lower it would have been a fatal blow. Mr. Wallbridge has kept at work, though it causes much pain.

An Official Investigation

O. B. Sheppard, Fishery Inspector, Toronto, held an investigation recently into charges preferred by Wesley Post, of Hay Bay, against E. H. Sills, Fishery Overseer for this district. The investigation was held at the Campbell House, the complainant charging Mr. Sills with neglect of official gross offence particularly. The latter charge was not pressed, however. A number of witnesses were called. The inspector reserved decision.—Napanee Express.

Operations at Point Anne

The stone quarry at Point Anne is a busy spot at present. There are close on 100 men now employed. Messrs. Boyd and Robinson have a large contract for supplying stone to the Cardinal canal. H. Quilman with a gang of men are engaged to dig the next week. Manning and McDonald also propose to start about 35 men shortly and it is expected that the coming season will be one of the busiest in the history of Point Anne.—Ontario

Railway Passes

The railway pass question has been settled. In 1896 two Ontario Cabinet Ministers went to Montreal to arrange with the railway companies the balance of the year. The usual passes which gave so much offence to the Patrons. This misdeed, however, was futile. This year a special committee was appointed to look into the matter. The result is that an arrangement has been reached by which the railways receive the mileage allowance of the members in exchange for passes.

Canadian Order of Foresters

Through the efforts of Bro. W. J. Malley the executive of the High Court of Canadian Foresters have deposited the sum of ten thousand dollars, a portion of the surplus cash of the balance of the branch of the Bank of Montreal. No portion of the endowment fund can now be used for any purpose, not even payment of interest, except for settlement of death claims. So well invested are the funds of this great order that sixteen per cent of the death claims of the past year were paid out of the interest accruing from the fund. The action of the executive in depositing the funds in the Bank of Montreal indicates the soundness of that great financial institution.

The barns are the largest and best equipped in Canada, having cost \$25,000, are fire proof, are made of rock maple and birch. The cattle never go out in winter, and are fed with hay and corn. J. Bowden, a Scotchman, is manager.

FIRE—Packages of bird seed for 5 cents at Malley's.

Notice

A general meeting of the members of the Deseronto Benevolent Society will be held in the reading room of the public library at 2:30 p.m. next Tuesday, April 13th. All the members are requested to be present.

Chosen Friends

At the meeting of Deseronto council, C. O. F., on Monday evening two candidates were initiated. At the next meeting, 19th inst., six members will be initiated. At an early day it will take three figures to indicate the membership of this council.

Royal Templars

There was a pleasant meeting of Deseronto Council of Royal Templars on Tuesday evening. The ceremony of initiation was performed. It was decided to hold a basket social on the evening of Tuesday, 13th inst. Invitations will be issued and a very bright programme and a happy time is ensured.

Easter Concert.

Love of music are expecting an evening of enjoyment on Tuesday, April 20th, when a number of talented children, assisted by Mrs. James Dalrymple, will give a concert under the auspices of the Ladies' Aid Society of St. Mark's Church. Tickets are placed at popular prices, 25 and 15 cts. A generous patronage is solicited.

Deseronto Shipyard

Edward Charles, of Kingston, has been appointed superintendent of the Deseronto shipyard. Mr. Charles is considered one of the smartest mechanics in Canada, having for years managed large shipyards at Gravel Island and various other points. During his long career he has made himself popular with all classes.

A Special Appeal

Archdeacon Bedford-Jones has issued a special appeal on behalf of the fund that provided small gratuities for the widows and orphans of deceased Anglican clergymen. He states that there is urgent need of increased liberality if the amounts granted are not to be reduced, the present claims on the fund having necessitated a serious withdrawal from the capital of the fund.

Death of James Robertson

One of Tyndin's oldest and most respected residents passed away Sunday April 4th, in the person of James Robertson at the residence of his son, Donald, in the 3rd concession. Deceased was born in Perthshire, Scotland, 87 years of age, and came to this country when seventeen years of age. He was a stone mason by trade. His wife died several years ago. Four daughters and two sons survive him. He was a Presbyterian. His funeral took place on Tuesday.—Intelligencer.

Great Credit Sale

A great credit sale of farm stock and implements will be held on Tuesday, 13th inst., at lot 27-28, concession 7 of the township of Tyndin, near the large house known as the Pitkin property, Hunt & Lyons, owners. A span of black mares, one mare, five milch cows, five yearlings, two steers, hogs, fowl, horse rakes, traps, and many other articles too numerous to mention will be disposed of. Terms of sale moderate. Sale begins at 1 p.m. H. Vankoughnet, of Napanee, will be the auctioneer on the occasion.

Canadian Oddfellows

The average of all members initiated into the C. O. F. during 1896 was 31 years. During January and February ninety-five policies were issued for a total insurance of \$77,000. After paying the large sum of \$15,400 in death and disability claims during 1896, the balance of the fund of the assurance fund on Dec. 31st, 1896, was \$6,570. The Grand Secretary offers two additional prizes, sword and initiation shield in connection with the cup competition when the competition closes on June 1st next.

MINING NOTES.

Inspector Kidd says there is lots of free gold in the district of Frontenac, but the great trouble is that it is in pockets and not in large enough quantities in one place to pay. He also says the farmers are getting a better education in geology. They rarely bring in samples which do not contain the genuine article.

The *Madoc Review* says the Toronto Tugboat Mining Co. have sold the Craig mine, near Hancock, to the Company represented by J. B. Eger, Oranysky, and other capitalists for the sum of \$47,000. This is a mine that was purchased a few weeks ago from Peter Vanklank, James Matland, and others for \$12,000. The new owners took possession of the Craig last week. Without doubt, new wealth is in the *Madoc* district gold mines.

Marble has been discovered at St. Olaf in Limerick Township, in North Hastings. Large marble quarry has been opened up. It has been sold to Hyman and Banks, of Toronto.

The *Trillium* has received a circular from the *Rat Portage* Mining Exchange announcing that the great Mining Convention which was to have been held at Rat Portage on the 6th inst. has been postponed until June 2, 3 and 4. Arrangements will be made to secure special fares to travellers and to enable visitors to inspect the various working mines and other interesting features in the vicinity. It will probably be the largest and most important gathering of the kind ever held in the district.

Sales of properties in Hastings County continue to be reported. John Egleston has sold the mineral rights to his place—situated in the 10th concession of *Madoc*—for \$5500. This lot is close by the property sold by one McKinnon a short time ago.

Belleville people are greatly tickled over the government grant for an assay office and already imagine their city another Johannesburg.

In estimating the value of Ontario's mining areas, it is important that we should know what others think of them. The *Dallas News-Tribune* has at present a representative in the *Rainy River* country, who speaks most highly of its extent and richness. He writes: "The Black Hills, Cripple Creek, the South African gold fields are in comparatively small areas, covering some hundreds of square miles. Here to the north of us is a territory apparently streaked and cross-streaked with veins of gold-bearing quartz, covering as far as it has been prospected, about 40,000 square miles and how much more no man knows." "So far only the fringe of this vast territory have been touched, the prospectors have confined themselves almost exclusively to such portions of the interior easily accessible by canoe for their prospecting." The territory thus outlined extends about 300 miles east and west and from 100 to 150 miles north and south. About one fourth of this is water.

Further discoveries of gold-bearing quartz veins are reported from Marmora and adjoining townships.

A correspondent writes: "A party of Londoners have recently taken an option on some property in Lusk Township, Bruce Peninsula, as a result of a discovery last fall while on a building tour. It is stated an assay of ore taken has proved very rich in silver, and it is understood a company will be formed to develop the property. These men claim that the northern end of the peninsula is just as rich in minerals as Algoma or Rainy River. If this is so here's a chance for some of the kinks against the English syndicate. The fact is Canada has plenty of mineral lands for all."

The *Roseland* Gold Mining, Development & Investment Company, Limited, claim to be pursuing a very careful course. Mr. Farin was sent by the company to examine properties and make assays before completing the purchase. The assay of the *Keystone* ore made by W. H. Stowell & Co. showed values in gold and silver ranging from \$87.42 up to \$842.40, but in no case that there could be no possible mistake other samples were taken and forwarded to the head office, which were given to Dr. Fryer, and the result, verified by him, verified the former report, the certified copies of the assay report showing values per ton respectively of \$851.00, \$1010.00, \$721.00, \$110.65 and \$19.55, the highest values by far being in silver.

Mr. Farin's reports on the company's properties are exceedingly gratifying, and the management hope that in the near future they will be able to increase their output from the revenue derived from the mine.

The *Barrenet Times* says: "We are assured that the diamond drill will be in operation on the iron prospects near town as soon as the season is favorable."

The *Richmond* mine, Maloc, has been sold by Col. Brown, of Belleville, and the other owners to a Toronto company for \$20,000.

Several members of the Deseronto Mining Exchange may attend the great mining convention at Rat Portage.

To remove worms of all kinds from children or adults Dr. Low's Worm Syrup is a safe and sure remedy.

The Chicago, Burlington & Quincy railway company is reported to have secured the *Lethbridge* and *Great Falls* line in the north west.

At Knoxville, Tenn., some of the largest wholesale and retail business houses in the south were destroyed by fire. The loss is estimated at \$1,000,000. The register of the Hotel Knox, in which fifty-six persons were sleeping was burned. The proprietor says five or six guests, have not put in an appearance.

Secretary of agriculture Wilson, of the United States, is making a specialty of selecting new and valuable lands from all parts of the world and putting them into the hands of farmers likely to use them to advantage. Canada and Japan are the two places where he has already been tried in some sections of the United States and have proved valuable forerunners.

HALLUCINATIONS.

SOME OF THE CURIOUS EXAMPLES RECORDED IN HISTORY.

The Lives of Many Great Men Have Been

Influenced by Visions—Frequently They Have

Been Caused Tragedies.

The importance of the part played by

dominant hallucinations in the history

of the world can scarcely be overrated.

Julius Caesar, Napoleon Bonaparte, So-

crates, Luther, Ignatius Loyola, are but

a few of the many who have been in-

timately entwined with ruling delu-

sions. In these cases the illusions seem

to have been persistent and not to have

been evoked by any voluntary action

on the part of the seer. On the other

hand, Talma could walk on to the stage

and after staring at the brilliant and

applauding audience for a few seconds

could see nothing but rows of grinning

skeletons. In this case he seems to have

been the victim of a voluntary action

of the great actor delivered some of

his grandest histrionic efforts.

Griffin, as might be expected, called

upon his vision. He was described in

the center of the world. He described it

as "This flower does not grow in a

man's form; it is generally decom-

posed, and from its interior are born

other flowers with colored, or sometimes

green, petals. These are not natural

flowers, but fantastic, nevertheless reg-

lar figures, such as the roses of scrip-

ture.

The capacity for this producing at

will a lovely object had, however, the

disadvantage described by Abernethy

in his famous "Inquiry Concerning the

Intellectual Powers," that they were

not as a rule dismissible at pleasure.

Blake, after studying a model seated in

a chair, could continue seeing her clearly

when the chair was empty. "This man

has been an economical way of hiring

a subject by the hour and would be an

acceptable talent in these days of highly

faded models. The ghastly case described

by Sir Walter Scott, of a man who

knew that he was dying, and knew

equally well that there was nothing

whatever the matter with him, is per-

haps too familiar to need more than

passing mention. The black cat, that

this little man saw was to use his

own words, "no household cat, but a

bundle of the elements which has no

existence." This animal was as com-

plex in form as the scorpion, for it

was a lion, suddenly in a corner, a

usher, and the usher in his turn would

become a skeleton. This man showed no

symptoms of insanity and was fully

aware of the unreality of what he saw,

which must greatly have added to the

persistent nature of his hallucination.

An old gentleman described by the

late Dr. Eliot had a power of conjuring

up, often without voluntary effort, two

or more charming dancing girls, and the

appearance of the girls was confined until

sleep came to the vision of the old gen-

tleman was of a particularly pious and

proper turn of mind, so that their grati-

fication was presumably wasted on him.

Nicolaï, of Berlin, a very level headed

man, for nearly two months was

tormented by the vision of a corpse, the

vision of a corpse, the hallucination lasted

as a rule exactly eight minutes, and the

body was apparently always steady at a

uniform distance of about ten feet from the observer.

This trouble, however, suddenly

ended in a violent quarrel in which Nicolaï

had been engaged. Ultimately the

corpses and all the poor man's other delu-

sions were driven back to their own

sphere by the presence of his wife, who

on the temple. This treatment

also most effective in dispelling the

visions of a certain clergyman in Hamp-

shire late in the last century. He habitually

engaged in personal encounters

with the devil, and at last he was

driven to the fens, out of his visual field.

Dr. Bostock, the psychologist, saw the

SUFFERINGS AT THE FRONT.

Terrible Scenes That Followed the Battle of Cold Harbor.

General Horace Porter, in "Cam-

paing with Grant," in "The Century,"

telling of the battle of Cold Har-

bor, says:

The general in chief realized that he

was in a swampy and sickly portion of

the country. The malaria was highly

productive of disease, and the Chicka-

homny fever was dreaded by both the

troops who had a recollection of its

ravages when they thought of the

section of the country two years before.

The operations had been so active that

precautions against sickness had neces-

sarily been neglected, and the "old

general was anxious, while giving the

men some rest, to improve the sanitary

conditions. By dint of extraordinary

effort, and with the aid of the police

and large quantities of fresh vegetables

were brought forward and distributed.

Cattle were received in much better

condition than those which had made

the march, and had furnished food

which was far from being wholesome.

Greater attention was demanded in the

cooking of the food and the procuring

of better water. Dead animals which

were buried, and more stringent sani-

tary regulations were enforced through-

out the entire command.

What was most distressing at this

time was the extent to which the

extreme frost. No one who did not wit-

ness the sights on those portions of the

line where the opposing troops were in

exceptionally close contact can form an

idea of the sufferings experienced. Staff

officers used to work their way on foot

daily to the advanced points, so as to

be able to report with accuracy these

harrowing scenes. Some of the sights

were not unlike those which the "old

angle" at Spotsylvania. Between the

lines where the heavy assaults had been

made there was in some places a dis-

tance of 30 or 40 yards completely cov-

ered by dead men, and the bodies lay

on both sides. The bodies of the dead

in the sun, while the wounded were

lying in a trench, and the sight was

giving a terrible picture of the suffer-

ing of the men. In some places the

stomach became sickening. Every at-

tempt to make a change in the picket

line brought on heavy firing, as both

sides had become nervous from long

watchfulness, and the slightest move-

ment on either front led to the belief

that the beginning of an attack was

being made. In the night there was

often heavy firing, sometimes accom-

panied by musketry, with a view to

detering the other side from attacking, or

occasionally by false rumors of an at-

tack. The dead men lay in the trenches,

with little water for drinking

purpose except that obtained from sur-

face drainage. They were subjected to

the cold winds of day and the chill-

ing winds of night, and the men who

eat the ration that had been got to them

under the greatest imaginable discom-

fort.

A QUORUM OF CONGRESS.

Much Business Transacted Without the

Privileges of Representatives.

In this Country of Ours," in "The

Century," ex-President Harrison, in

describing the workings of the

congress, says: "A majority of each

house, under the constitution, constitute

a quorum for the transaction of business.

A quorum is not present and that fact

is disclosed by a yeas and nays vote, busi-

ness must stop until a quorum is em-

ployed. But the members present are em-

powered by the constitution to adjourn

from day to day, and to compel the attend-

ance of the members present in each

house, and under each penalty as each

house may provide. A great deal of business

THE RESULT OF AN ATTACK OF LA

GRIPPE AND PNEUMONIA

The Strange Case of Mr. James Owen, of Johnville—Doctors Told Him His Lungs Were Affected and He Could not Recover—Now in Good Health.

When a man faces what medical authorities tell him is certain death, and regains health and strength, he is naturally grateful to the medicine that has restored him. Such a man is Mr. James Owen, of Johnville, a well known farmer in the vicinity of Johnville, Que.

Mr. Owen tells his story of shattered health and health restored as follows:—"On the 17th of December, 1894, I was taken with the grippe. A week later the trouble developed into pneumonia in its worst form and I did not leave my bed until the first of March, 1895, and then I was so weak that I was unable to walk alone. All winter my life hung by the balance. Summer came, and I was still weak and feeble, though with the warm weather I gained a little strength. I had however but very little power in my legs, and I could not ride a mile in a buggy owing to the pain they caused me. My lungs also troubled me, and I was unable to do much work. I then consulted the best doctor we have in this section of the province. He told me that my lungs were in a bad state, and he said that my left lung was in a state of collapse, and that my right lung was also affected. This was in July 1895. For the next three months, every day seemed to draw me nearer and nearer the end. I was so pressed for breath at times that I could not walk any distance without stopping to regain it. In the month of November I began to take Dr. Williams' Pink Pills. It was certainly a fortune for me and I admit I did not expect much benefit from them. I took them rather to please a friend who urged me to do so. I believe I was surprised when I found they were helping me, for I thought I was beyond the aid of medicine, but help me they did, and I gladly continued their use. The result is they have made a well man of me. I have not a pain about me, my breath comes freely, as it ever did, and I am strong and vigorous. My case can be briefly summed up in a few words. Dr. Williams' Pink Pills have given me a new lease of life and I can tell everyone who knows it. Dr. Williams' Pink Pills create new blood, build up the nerves, and thus drive disease from the system. In hundreds of cases they have cured after other remedies have failed, thus establishing the claim that they are a marvel among the triumphs of modern medicine. The genuine Pink Pills are sold only in boxes, bearing the full trade mark, 'Dr. Williams' Pink Pills for Pale People.' Protect yourself from imposition by refusing to pay for a pill that does not bear the registered trade mark around the box.—Sherbrooke Gazette.

A THURLOW FATALITY

An accident which resulted in the death of Samuel Clarke on Thursday, April 8th, in the second concession of Thurlow, a short distance from Belleville, on the farm of Sylvanus Roblin, the farm of the accident was engaged, with other men, in sawing wood with a horse-power machine, and had only been at work a short time yesterday afternoon when the heavy iron fly wheel burst, the fragments being hurled with great force in all directions. Clarke, who was nearest to the wheel, was struck in the side by one of the flying iron and received injuries from which he died shortly after noon. Seven ribs were broken by the iron and his lung was exposed. The body was removed to the hospital where the severe injuries received. Doctors were summoned to the scene of the tragedy, but when they arrived the young man was dead. He was born in Scotland 25 years ago and came to this country in charge of the Marchmont Hotel from the work of the farmers since he came to Canada, and is spoken of as an industrious young man. The horse supplying the motive power to the sawing machine was severely injured by pieces of the flying iron. It is thought there was a defect in the wheel.—Intelligencer.

The Don Kidney Pills Co., Toronto, Ont.

Dr. Williams' Pink Pills for Pale People. I got a box of your Kidney Pills from the Miami Don Store, determining to give them a chance to cure me of the kidney complaint, from which I have suffered for some time and which has become so bad lately that I could scarcely move. I may say it resulted from a fall which I received a few months back. After using several kidney pills and cures of different kinds, but without receiving any benefit, therefore I am pleased to testify to the great benefit that I have received from your Kidney Pills. I have used only one box up to this date, and the change in my condition is so great that I cannot refrain from recommending them to any person who is afflicted as I have been, or troubled with any kidney disorder. For I believe that if they would cure me they would cure almost any case. I will be able to resume my farm work now, as usual, and it is not the slightest worry either. I am, sir, yours truly,

Y., April 9.—Mrs. Adelle Shortt Marshall, of this place, aged seven years, Tuesday, vomited up a substance known as fatigues of the stomach, which in length and one inch thick, which bore a decided resemblance to a lizard. She had stomach trouble during the past two years and could not get relief from medical treatment. Since March 18th she had taken no solid food. Tuesday night she died.

Adelle Shortt Marshall was the daughter of Rev. W. Shortt, who died last fall. She was born in Deseronto, Ont., June 23rd, 1889, and was married to George C. Marshall, Nov. 10th, 1895. They resided in this village about two months. Her mother was the sister of Dr. G. A. Grindstone, and she had a brother, Dr. G. A. Grindstone, and she had a brother, Dr. G. A. Grindstone, and she had a brother, Dr. G. A. Grindstone.

THE LIFE OF DR. CHASE.

As a compiler of Chase's Recipe Book, his name is familiar in every household in the world, and his name is a household word. The simple formulae left an imprint of his name that will be handed down from generations to generations. His last great medicine, in the form of his Syrup of Liniment and Turpentine, is having the large public patronage that his Ointment, Pills and Syrup have enjoyed. Dr. Chase's Syrup of Liniment and Turpentine is especially adapted for all Bronchial and Asthmatic troubles.

Sick Headache and Constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

The wife of James Laing, of the Laing packing company, Montreal, died in the last of her illness. In the case of one firm the discharges are understood to be in connection with charges of alleged dishonesty.

No small objections which young folks had to the old time spring-medicine, was the fact that the Syrup of Liniment and Turpentine is having the large public patronage that his Ointment, Pills and Syrup have enjoyed. Dr. Chase's Syrup of Liniment and Turpentine is especially adapted for all Bronchial and Asthmatic troubles.

Henry Ward Beecher once informed a man who came to him complaining of gloomy and despondent feelings, that what he most needed was a good cathartic, manifesting the fact that a medicine such as Cathartic Pills, every day being effective.

The extensive dry goods houses in Toronto have been recently dispensing with a number of hands of long service, on the ground that they could not afford to pay the wages of the discharged hands. In the case of one firm the discharges are understood to be in connection with charges of alleged dishonesty.

In the British house of commons Friday Mr. Chamberlain announced that a contract has been signed between Canada and the Petros, of Newcastle, for a fast steamship service between Canada and Great Britain, Chamberlain added, the contract still requires the sanction of the imperial government.

Arnold's Comment.

As school inspector Matthew Arnold was visiting a class in geography one day, and holding up the poker with which he was about to stir the fire, he asked if any child could tell him where it was manufactured. There was a long silence, broken by the schoolmaster, who remarked nervously that such information was not mentioned in Corneil's geography. "No," said Arnold: "Corneil's an ass!"—San Francisco Argonaut.

Where the Trouble Was.

"Well, child, Jack and I are to be married at last, and we are so happy." "Did you and Jack have some trouble in getting your father's consent?" "No, but papa and I had a lot of trouble in getting Jack's consent." "Pick Me Up."

ALIENS EXCLUDED

TO PROHIBIT AMERICANS TAKING UP MINING CLAIMS

In British Columbia—Report of a Committee of the Legislature—Mining Laws Revolutionized.

Victoria, B.C., April 13.—That British Columbians have not forgotten the blow aimed at Canadians in the famous alien labor clause of the Cobles amendment has been evidenced in a stilling manner by the action taken during the past few days in the Mining Committee of the Provincial Legislature. This important body has for several weeks had under consideration an amendment in the mining law of the province.

Suggestions have been pouring in upon them from all quarters and after sifting these the majority of the committee have signed the report recommending that hereafter "aliens," which may be interpreted as specially referring to American citizens, shall be prohibited from taking up mining claims in this province.

Heretofore no restrictions have been placed on American enterprise, and even with the red rag of the Cobles amendment before them, the committee would not go the length of forbidding the ownership of claims by Americans.

Another important amendment adopted by the committee provides that persons making an "adverse" must prove that the first location has been improperly made, the original locator having heretofore been required to establish his position.

Still a third section of the majority report provides that anyone obtaining a Crown grant to mineral property is to be empowered to purchase from the Government all surface rights at \$2 per acre. These changes practically revolutionize the mining law of the country, and will provoke the heated debate of the session when laid before the House.

FOR BRITISH SUBJECTS.

Vancouver, B.C., April 13.—At last night's meeting of the City Council a resolution that only British subjects be employed in the city was adopted. It passed with only one dissenting voice. All the aldermen spoke on the subject, the majority stating that they favored the motion in view of the public office introduced in the United States. The motion was loudly applauded by the audience.

STERNAMAN CASE.

The Trial May Come On at the May

Buffalo, N.Y., April 13.—Correspondence has been exchanged between Mr. Wallace Thayer, of this city, counsel for the defendant, and Mr. J. R. Cartwright, Deputy Attorney-General at Toronto, in which the proposition for a return to the practice of the law has been made. The return has been given. Mr. Thayer wrote again to Mr. Cartwright this morning.

The Crown Attorney, Mr. Cartwright, must receive a positive assurance of trial and final determination of the case at the May Assizes, and that he must ask, in view of the financial condition of Mrs. Sternaman, to hire other counsel, to be allowed to personally defend Mrs. Sternaman, obtaining an order to that effect from the court.

If these terms are at once arranged Mrs. Sternaman will voluntarily return to Cayuga, Ont., where the husband, Attorney Charles J. Thomas said yesterday that the extradition was certain, but that there was a place of evidence missing that might stand in the way of the conviction of the woman. She is at present in the Erie County jail.

Mr. Cartwright, the Deputy Attorney-General said last night, in speaking of the case of the American woman, that all the Crown could promise was that the case would be put on the docket if it could be accomplished. The letter referred to in the dispatch had not yet reached him.

Interesting Insurance Suit.

Berlin, Ont., April 11.—Dr. Minchin, C.E., of Berlin, has been subpoenaed to go to Guelph to-morrow to give evidence in an action brought by Mrs. Patterson, of Kitchener, to recover some insurance money on a policy held by her late husband in the Select Knights' society. The suit will be of considerable interest in Western Ontario. Mr. Patterson, whose widow is bringing the suit, came to Berlin one day in the autumn of 1895. He acted strangely about town, and was subsequently found dead in his room in the Grand Central hotel, while near the bed on which his body lay, there was a bottle which had contained a deadly poison which the jury disagreed, purchased that morning at Hoffman's drug store. The coroner's jury brought in a verdict of accidental death, but while Select Knights believe the man committed suicide, and refuse to pay the life insurance, hence the suit. Patterson was a well-known grain and stock buyer, well-to-do as far as this world's goods go, and his relatives from the very first scouted the theory of suicide, notwithstanding the suspicious circumstances surrounding his death.

What She Got.

Seranton, Pa., April 13.—Anna Dickinson, one time lecturer and actress, has recovered a verdict of six and a quarter cents from George B. Thompson, of Pittsburg, John S. Hoffman, of Glen Elderwood, and Henry Dryden, of Allensburg, on the basis of claim that they had brought about the unwarranted incarceration in the Danville Insane Asylum in 1891. Miss Dickinson's suit was originally brought two years ago, but after a ten-day trial the jury disagreed, and the case was continued. Her claim was for \$500,000 damages.

Lieut.-Governor Kirkpatrick. London, April 13.—Letters and cablegrams to Canada state that the Lieut.-Governor of Ontario, is dangerous, and that he is suffering from a slight relapse since his departure from Brighton, he has since improved, and it is his present intention of returning home by the White Star liner Majestic.

Counterfeiters Sentenced.

Brantford, April 12.—At the Police Court this morning the case of the counterfeiters was again heard. J. S. Brown was sentenced to 23 months in the Central Prison, and J. S. Brown to three years in Kingston Penitentiary. The charges against the younger Brown and J. Brown (colored) will be heard Wednesday.

WINDSOR NEWS.

O'Neill Sent to the Penitentiary for Night-Work—Flying Rollers to Make Their Headquarters in Windsor.

Windsor, Ont., April 12.—Peter O'Neill, alias Kelly, the man who held up Andrew Bertram, of Walkerville, at the point of a revolver on the night of March 22 last, and who was captured a few minutes after the commission of the crime, was placed on trial before his Honor Judge Horne at Sandwich this morning. The case against the prisoner was a clear one, and a conviction was easily secured. After Mr. Bertram had positively identified O'Neill as the robber, the judge sentenced him to eight years in Kingston Penitentiary. O'Neill, or Kelly, was liberated from a Michigan prison on the same day he was arrested in Windsor. He has just finished a term of three years for larceny.

Benjamin Feetham, a young Essex man who has been working in a Detroit grocery store for weeks past, was approached a few days ago by one of Inspector McGowan's minions, and notified that he was wanted by the United States alien law. He was given half an hour to get out of Uncle Sam's domains, and he obeyed, but he is very wrathful over what he terms his summary treatment.

For several days past there has been a report that the main avenue along which Flying Rollers from Detroit were making preparations to move. Their prospective destination was a matter of considerable interest. The rumor was that they were to be housed in this city, and will be the headquarters of the Flying Roll in Canada. There are now four or five women in the house, and more are expected by the end of the week. The men of the colony only put in an appearance once or twice during the week. They wear the long hair and garments of the orthodox "Rollers." They will not be molested unless they are in the way of the moral code, which it has frequently been asserted the set are none too particular about.

MANITOBA MATTERS.

Conservatives Will Not Put a Candidate in Field to Oppose Mr. Jameson.

Winnipeg, April 12.—At a general meeting of the Conservatives on Saturday night it was decided not to place a candidate in the field to oppose ex-Mayor Jameson, the Liberal nominee. The Trades and Labor and Temperance organizations held a meeting on Saturday night, and appointed a committee to secure an independent candidate to oppose Mr. Jameson. The committee will report to a public meeting in the Bijou Opera House on Tuesday night, and a candidate will probably be nominated. It is considered that with the joint endorsement of labor and temperance the nominee can defeat Mr. Jameson.

A meeting of ex-Canadian volunteers was held here on Saturday afternoon. The petition prepared by the Toronto Star Executive Office, Mrs. J. W. Shackleton.

Judge Houston received yesterday morning a letter from Sir Oliver Mowat, promising to lose the majority of making certain amendments to a statute pointed out by the judge. In England, under the criminal code, a man has only to be proven guilty of an offence, and he is sentenced, for example, and he may be sentenced. In Canada, however, the laws are different, and when a man is accused of an offence, it is necessary for the complainant in the case first to prove that the man is guilty, and secondly, to point out the evidence of the offence, how, when, and where the blow was struck.

BELLELEVILLE BRIEFS.

The Death Record—Price for Pulpit Oratory—Capture of a Thief.

Belleville, April 12.—The oldest resident of the city died on Saturday night, Miss Johanna O'Donnell, aged 96 years. She was a native of Ireland, and received the prize for pulpit oratory in Albert College, after a close contest.

For some time past money had been missed from the shop of Wm. Peterson and Son's wholesale confectionery, adjoining the police station, and for several nights a watch was kept, but in vain. On Saturday night however, Policemen Hayes kept watch, and about 3 a. m. Sunday the burglar entered the place and was seized by Hayes, who captured him, and took him to the cell. He proved to be Thomas Parsons, a painter, who was born in Belleville and has lived here all his life. Chief Police Constable Hayes at once went to Parsons' house, and in the cellar found a large quantity of goods stolen from Peterson and Son's, claiming that the goods, which had been identified by local dealers as their property. The prisoner, who had previously been convicted for larceny, was taken to the Police Court, and remanded till Wednesday.

5 lbs. of Coal

A day would keep your rooms warm in winter. But that small stove will burn only a few cents worth of fuel, and discomfort and misery.

A certain amount of fat, burned daily, would keep your body warm and healthy. But your digestion is bad, and you don't get it from ordinary fat food. Hence you are chilly, you catch cold easily, you have coughs and shivers, you are nervous, or consumption finds you with no resistive power.

Do this. Burn better fuel. Use SCOTT'S EMULSION of Cod-liver Oil. Appetite and digestive power will revive; and soon a warm coating of good flesh will protect the vital organs against the cold and the body against disease.

Two sizes, 50 cts. and \$1.00. Both good for the sickling.

CHATHAM NEWS.

Death of a Highly Respected Resident of Blenheim—Election of Officers.

Chatham, April 11.—Detective McKelvey, of the Provincial Constabulary Association, is lying dangerously ill at his residence from hemorrhage.

Secretary Scullard, of the Chatham Board of Trade, has received notification of the space set apart by the managers of the International Exposition, to be held at Queensland, Australia, for Canadian exhibits. He will bring the matter up at the next board meeting, and it is highly probable that the leading industries of this city will be represented at the great antipodean fair.

There died on Friday, at Blenheim, after a long and painful illness, extending over two years, Mr. Wm. Shillington, son, one of Blenheim's most highly respected citizens.

The Kent County Children's Aid Society held its annual meeting last night, and elected the following officers: President, Dr. T. K. Holmes; Vice-President, Mr. S. P. Gerdiner; Mr. C. J. O'Neill, Dr. J. H. Duncan, Mr. John A. Walker, Treasurer, Mr. Henry Dagnieu; Secretary, Mr. Charles Benson; Hon. Secretaries, Messrs. W. G. Richardson and Fred Stevenson. Executive Officer, Mrs. J. W. Shackleton.

Judge Houston received yesterday morning a letter from Sir Oliver Mowat, promising to lose the majority of making certain amendments to a statute pointed out by the judge. In England, under the criminal code, a man has only to be proven guilty of an offence, and he is sentenced, for example, and he may be sentenced. In Canada, however, the laws are different, and when a man is accused of an offence, it is necessary for the complainant in the case first to prove that the man is guilty, and secondly, to point out the evidence of the offence, how, when, and where the blow was struck.

The death took place today of Mr. Robert Houston, of this city, the father of Judge Houston, of this city, at the family homestead in Harwich. Only a day or two ago the deceased celebrated his anniversary, and he was in the 63 years Mr. Houston had resided on the farm where his death took place. He was one of the wealthiest and most prominent of Ontario farmers, and leaves a record of unblemished probity and public usefulness.

THE BALANCE OF POWER.

Germany, Russia and Austria the New Dreikaiser—Entente between England, France and Italy.

London, April 12.—It is understood on reliable authority that another great shifting in the political chess board of Europe is imminent, the relations of the three great powers, Germany, Russia and Austria, to the extent that they are being artificially bolstered up, and the adhesion of Italy to the Dreikaiser being regarded as a serious menace to the peace of Europe. The relations of the three powers to the Italian military and naval supremacy are being regarded as a serious menace to the peace of Europe. The relations of the three powers to the Italian military and naval supremacy are being regarded as a serious menace to the peace of Europe.

London, April 12.—Mr. Richard Dobbell, the Canadian Cabinet Minister without portfolio, who sailed for New York on the Cunarder steamer Canada, is in an interview previous to his departure, said that a contract to build four fast ocean liners had been signed on condition that the Imperial Government would share in the cost of the proposed fast between Canada and Great Britain. The negotiations of the subject are not yet concluded, but Mr. Dobbell hopes they will be shortly.

Lieutenant-Governor Chapleau has applied for and obtained leave of absence, and Sir Alexander Lacoste has been appointed Administrator.

A OF BIT LIFE.

A maiden sat within the door And sang as many times before. A man to half told passed by, And thought he would be sure to see. He when he heard his merry song He whistled as he went along.

A woman by the window sat, And sang as many times before. But when upon her hearing fell, That voice she knew and never could forget. The sound of her dear home was still, And soon her heart was eased.

And neighbor heard her tender strain And softly joined the sweet refrain. Thus all day long that one song bore Its joyousness from door to door.

Woman's Work

Is never done, and it is especially wearing and wearisome to those whose blood is impure and unfit properly to tone, sustain, and recover the wasting and vitalizing muscle and tissue. It is more because of this condition of the blood that women are run down.

Tired, Weak, Nervous. Than because of the work itself. Every physician says so, and that the only remedy is in building up by taking a good nerve tonic, blood purifier and vitalizer like Hood's Sarsaparilla. For the troubles peculiar to women at change of season, climate or life, or resulting from hard work, nervousness, and impure blood, thousands have found relief and cure in Hood's Sarsaparilla.

Hood's Sarsaparilla
The One True Blood Purifier. 50¢ per bottle. Prepared only by C. I. Hood & Co., Lowell, Mass.

It is the only pills to take Hood's Pills with Hood's Sarsaparilla.

Nervous

People often wonder why their nerves are so weak; why they get tired so easily; why they start at every slight but sudden sound; why they do not sleep naturally; why they have frequent headaches, indigestion and nervous

Dyspepsia

The explanation is simple. It is found in that impure blood which is continually feeding the nerves upon refuse instead of the elements of strength and vigor. In such condition opiate and nerve compounds simply deaden and do not cure. Hood's Sarsaparilla feeds the nerves pure, rich, red blood, gives natural sleep, perfect digestion, is the true remedy for all nervous troubles.

MELTED SNOW POWER.

Swiss Towns That Utilize the Mountain Streams.

Besides a considerable number of large water power installations Switzerland is full of small power plants, nearly every town in that land of mountains and waterfalls being well supplied with power from the "white coal," as the melting snow on the mountain sides has been called. When there are no large streams, many small ones are harnessed and collected in reservoirs on the hillsides, and it is rare to find a place of any size which is not well lighted by the power of some mountain stream.

At Montreux the electric tramway gets its power in this way, and from the old Roman town of Vevey to the medieval castle of Chillon one may ride in a trolley car propelled by the power of an insignificant little stream which may or may not be noticed when climbing up the hillsides just above.

The capabilities of this general utilization of natural power are beginning to be understood everywhere, and, with the appreciation of the possibilities of the best methods of long distance transmission, the development of many mountain streams must surely come. There are innumerable small streams, which, while very small, are yet very high, and these can with comparatively little difficulty be impounded and carried down many hundreds of feet, thus making up a large volume by the great pressure resulting from the height. The use of electricity or compressed air, the power may be transmitted to many points of application with but little loss.—Cassier's Magazine.

Women Read Advertisements.

It is claimed, says the Philadelphia Press, that the women are the only readers of advertisements. In measure this is true, and necessarily so, for women are the largest and best purchasers for the household and spend more of the money that is earned by business, professional and working men.

Even in the larger transactions it will probably surprise dealers to learn how influential a voice women, which, the purchase of a house is almost invariably determined by the women of the household, and in nine cases out of ten their information as to the situation and desirability of a purchase is gained from the newspapers.

And every furniture dealer, dry goods dealer, groceryman and keeper of any sort of a store knows that he must appeal to the women if he wishes to sell his goods. One of the largest elements in the success of one of the greatest merchants in the world today is the fact that he knows how to appeal attractively through the advertisement to the woman.—Fourth Estate.

A Bible Sted.

A friend of the Listener saw a funny sight down in Maine. At a place there, he needn't be named, there lives a small boy named Jonathan Longfellow, who is a third or fourth cousin of the poet, and he is a great boy too. One day this friend of the Listener was driving past young Jonathan's house and saw the boy engaged at a little distance in sliding down hill on the slippery crust on something that was not a sled. What could it be? Evidently the scrutiny of the passerby was observed by the boy, for he stopped his coasting and called out anxiously, "Is it sliding down hill on the Bible." And it was the fact too. He had got the smooth, leather bound fable of all the generations of all the generations, and was coasting on it with magnificent success.—Boston Transcript.

The Humorous Bicycle Reparator.

Rheumatism & Dyspepsia Cured

571 ST. PATRICK STREET,
OTTAWA, July 31st, 1896.
To the Phenoline Medicine Co., Ltd.,
Ottawa, Ont.

GENTLEMEN—On the advice of a friend I tried one bottle of your famous rheumatic remedy, Phenoline, and to my surprise it cured me of rheumatism, from which I have suffered for many years.

It also cured me of dyspepsia, from which I was suffering at the time, so that I feel now like a new man.

I have tried several remedies for rheumatism, some of which did me a certain amount of good, but nothing that I have taken has done so much for me as your Phenoline, and I have much pleasure in recommending it to other sufferers.

Yours very truly,
(Signed) JAMES CARROLL,
Foreman of Works, Rideau canal.

Franklin's Loan.

We often learn by sad experience that it is a very unwise plan to give money to the poor. It is much wiser either to loan or to require some slight return in work. This plan tends to raise the respect of the recipient rather than to form the easily acquired habit of begging. In an old English magazine we find the following letter from Dr. Franklin to some unknown beggar.

It is amusing as well as instructive: "April 29, 1784.

"I send you herewith a bill for 10 shillings. I only lend it to you. When you shall return to your country, you cannot fail in getting a greater value for the money than you enable you to pay all your debts. In that case, when you meet with another honest man in similar distress, you must pay him by lending this sum to him, enjoying him to discharge the debt by like good will."

It is a good idea to give such a sum. I hope it may thus go through many hands before it meets with a knave to stop its progress. This is a price of unknown value, and a deal of good with a little money. I am not rich enough to afford much in good work and so am obliged to be sparing. I have made the most of a little. —Harper's Round Table.

Virginia Frogs.

"In Chickadee and contiguous swamps," says the Richmond Dispatch, "Virginia states bigger frogs, than frogs of any other state in the Union. Moreover, these frogs can jump higher, jump farther, splash more water when they jump and utter a greater variety of notes in their concert than any other frogs on the face of the globe. It is a poor specimen of the class of the Chickadee frog that could not, even after a dinner of shot, have been Mark Twain's jumper and had a few feet to make."

The little fought between the Turkish and Greek troops on the plain beneath the Albanian pass has proved adverse to the Greeks, who have had to abandon Larissa and Tyrnovo.

The case against Lieut. Eloff, the grandson of President Kruger, who was charged with slandering the Queen, has been dismissed on the ground that the evidence was conflicting.

It is learned that the visit of the eight British warships to Delagoa Bay was intended to frustrate the intrigues of Germany, Portugal and the Transvaal to change the status quo to the disadvantage of Great Britain.

The London Times, referring to the Dominion tariff, says the departure of Canada is most gratifying to all who desire to see the Empire more closely knit together. But the Daily News says that Minister Fielding is under a complete delusion if he really supposes that preferential duties to benefit the colonies will be adopted in England.

Struck by Lightning.

Toronto, April 29.—David James, the twelve-year-old son of David Yeamans, of Brown's Corners, was struck by lightning on Friday evening between six and seven o'clock, in the doorway of his father's stable, at Brown's Corners, and killed instantly. His father, who was standing three feet away, was stunned, but not otherwise injured. The funeral took place on Sunday at St. Paul's cemetery, when there was an enormous attendance.

IT WAS NOT GOOD.

The Little Man Learned How Counterfeit Money is Treated.

Behind their wire and glass cages the bank tellers and bookkeepers were working with high pressure. Long rows of men could be seen, the bookkeepers standing and bending over huge ledgers and the tellers thumbing bills, notes and gold slips. Lines of people were waiting before many of the windows, and to one side could be seen the higher officials at their desks, most of them busy with their work. A special policeman at the door stood guard over the throng.

The crowd had momentarily deserted the paying teller's window. A little man, dressed and with quick, nervous steps made for the unoccupied spot. Anxiety was shown in every move as he pushed a gold coin through the grating.

"Please tell me if that bill is good," he asked.

The teller looked at it and gave a sharp glance at the nervous little man. Then he put the bill in an iron contrivance on the counter and smashed his fist on a disk of brass above.

The little man gasped as he took the bill and held it up, for, punched out in clean, big letters was the word "counterfeit."

"Sorry, sir, but the law requires me to do that whenever I see a bogus bill," said the cashier. But the little man did not hear. The policeman ran up and carried a limp burden to the door.—Chicago News.

King George Explains.

The correspondent of The Daily Telegraph at Athens will say to-morrow: "I am at liberty to affirm that King George emphatically repudiates all responsibility for the precipitate retreat of the army from his side-decamp. Col. Spontaneous, asking him to allow the retreat. The King replied: 'I am at Athens and can King George explain.'"

Port Colborne, Ont., April 29.—A piece of wood bearing the name of a late King of Greece was picked up by a person watching the shore this afternoon, east of the harbor, which is causing much talk among the men here. The name of the late King was on the wood, and was out in the den of a dog on Sunday, and it is feared she has come into collision with some boat in the harbor.

The New Niagara Bridge.

Niagara Falls, N. Y., April 27.—It is expected that in a day or two the Grand Trunk tracks will all be laid on the new steel arch bridge, and the use of the upper part of the suspension bridge will be discontinued. A large force of men is rapidly doing the riveting and bolting of the steel work. One of the other parts of the bridge work is the Mount of the Niagara steamers has been launched and will begin running to-day.
